

# ACS Cassettes®

## DATA SHEET

Metrological characteristics	
Material	Carbon
Membranes available	MCE (Mixed Cellulose Ester)
	Fiberglass
	Quartz
Available versions	4 pieces
	3 pieces
	NUC
Packaging	50 units
Compliance	NF X 43-269 NF X 43-050
Operating temperature	0° C to 45° C
Storage condition	Ambient temperature Shelter from humidity

## Main characteristics

Complies with standards NF X 43-269 and NF X 43-050

Conductive plastic material

Waterproof

Antistatic material prevents fibers from sticking to the walls of the cassettes and ensures optimal removal

Easy to open, no tools required

## Storage advice

Store at room temperature and protect from moisture

Do not open the cassettes outside the location where the sample is taken

Preferably use the cassettes within 2 years from the date of purchase

**NOTE : Failure to follow the above instructions may result in non-compliant results**

## Additional article

**AYrspiré®**

## Packaging

This product is distributed in a package

Éco-friendly

(100% recycled & recyclable)

Delivered with instructions for use and conformity file to the NF X 43-050 standard
